OUTSTANDING STUDENT

Cathy Li | Y11, Epsom Girls Grammar School

Cathy Li began taking an Essay Writing class at Eduexperts Newmarket Centre from Term 3, 2020. She is a very capable student academically with a great work ethic and an excellent attitude. She performs well in class and completes her work to a high standard.

She gives every minute her best. Cathy is a pleasure to have in the class and we look forward to seeing her progress. Keep up the good work!

Teacher's comments:

"Cathy's writing skills have improved tremendously. She responds with great detail, insightful response within well-structured paragraphs. I would love to take credit for this improvement upon studying in my classes; however, it is her drive and conscientious nature that has assisted her greatly in her sophisticated writing and analyses of texts."

EVENTS & NEWS

- 1) Dialogue with senior students
- 2) Academic seminars
- 3) Term 1 Holiday Programme

1) Dialogue with senior students

On the 23rd of April, EduExperts invited Linda Tang to have a dialogue with EduExperts' existing students. Linda studied at Albany centre for four years before she graduated from high school at the end of 2020.

Linda was the Dux and the deputy head girl at Pinehurst School. She won a silver medal at the New Zealand Biology Olympiad and was awarded top in physics and chemistry in the Cambridge A Level exams.

During the discussion, Linda shared her experience of the applying to Cambridge University, her time management and how to learn more effectively.

2) Academic seminars

EduExperts successfully held two seminars at the New Lynn and Botany centres this month.

HSPT and the NCEA/CAIE/IB systems were introduced in the seminars. Lots of students and parents are interested in, and keen to know, how to prepare for the high school.

Followed by the seminars, dozens of students did the assessments and enrolled. EduExperts hopes that it can help these students to achieve their targets in 2021!

3) Term 1 Holiday Programme

SPECIAL COURSE - EduExperts' Writing Class

EduExperts began offering writing classes in response to demand from students who found it challenging to practise and improve their writing without specific guidance from teachers.

Writing is a vital skill that students need to master as it provides the avenue for them to learn the rules of their language and to organise their thoughts in an interesting and coherent manner.

Not only is it an essential skill for academic success, the ability to communicate effectively through writing is universally required by employers.

The writing course is offered to students of all ages and introduces students to a variety of styles, such as narrative, persuasive, compare and contrast, report and cause and effect. It also teaches students how to develop sentences and construct paragraphs in order to produce A+ essays.
